#### 四、閱讀測驗

(一) One of the keys to the success of Toyota's lean production and continuing improvement processes is that they are not formulaic to the point that they limit employee innovation. Instead, they are quite the opposite, serving as guides designed to unleash previously untapped employee potential. In Toyota, principles should remain the same but methods for reaching objectives should constantly change: What works today can always be improved upon. Therefore, a central element of maintaining the same culture at Toyota year after year is encouraging employees to find different and new ways of contributing.

Many who study Toyota's way of working are often initially surprised at the lack of specific, step-by-step, how-to instructions. But the Toyota culture is intended to draw upon the creative abilities of employees; if the processes were put into a manual featuring steps 1, 2 and 3, then people would likely follow the steps robotically, doing their job each day precisely the same way they did it the day before. The Toyota system is teaching people to think for themselves and find a better way to do the job, and to take individual ownership.

- 【2】 41. Which of the following is the most appropriate title for the above passage?  
 ① Toyota's Employee Loyalty                    ② More Than a Formula  
 ③ More Formula than Creativity                ④ Employee Management
- 【2】 42. In Toyota, \_\_\_\_\_.  
 ① employees are required to follow stringent instructions  
 ② exploring employee potential for innovation is encouraged  
 ③ independent thinking is not prioritized  
 ④ action plans and methods cannot be easily altered
- 【1】 43. In Line 3, the underlined phrase "to unleash previously untapped employee potential" implies that \_\_\_\_\_.  
 ① less control over employees' creative doings brings out greater employee contribution  
 ② putting employees on a leash is to tap on employees' unknown abilities  
 ③ employees have great potential except unleashing themselves  
 ④ previously employed personnel cannot be unleashed for more contribution

- 【4】 44. Which of the following elements can be barely seen in Toyota's management?  
 ① Emphasis on employees' creative abilities  
 ② Rather standard principles but flexible methods  
 ③ Innovative approaches to reach objectives  
 ④ Specific and step-by-step instructions
- 【3】 45. Which of the following is NOT a key to success in Toyota?  
 ① Encouraging new ways of employee contribution  
 ② Undertakings to do better in different ways  
 ③ A strong process control by following the manuals  
 ④ To think outside the box

(二) How men first learnt to invent words is unknown; in other words, the origin of language is a mystery. All we really know is that men, unlike animals, somehow invented certain sounds to express thoughts and feelings, actions and things, so that they could communicate with each other; and that later they agreed upon certain signs, called letters, which could be combined to represent those sounds, and which could be written down. Those sounds, whether spoken or written in letters, we call words.

The power of words, then, lies in their associations—the things they bring up before our minds. Words become filled with meaning for us by experience; and the longer we live, the more certain words recall to us the glad and sad events of our past; and the more we read and learn, the more the number of words that mean something to us increases.

Great writers are those who not only have great thoughts but also express these thoughts in words which appeal powerfully to our minds and emotions. This charming and telling use of words is what we call literary style. Above all, the real poet is a master of words. He can convey his meaning in words which like music and by their association can move men to tears. We should therefore learn to choose our words carefully and use them accurately, or they will make our speech silly and vulgar.

- 【4】 46. The author of the passage advises us \_\_\_\_\_.  
 ① to use emotional words                    ② to use words in a literary style  
 ③ not to use silly and rude words            ④ to use words carefully and accurately
- 【3】 47. What is true about the words?  
 ① They are visual letters.                    ② They are signs called letters.  
 ③ They are represented by sounds.            ④ They are represented by thoughts.
- 【4】 48. One of the reasons why men invented certain sounds to express thoughts and feelings was that \_\_\_\_\_.  
 ① they could agree upon letters                ② they could write and combine them  
 ③ they could express actions and things        ④ they could communicate with each other
- 【1】 49. The secret of a writer's success is the use of words that \_\_\_\_\_.  
 ① recall to us the glad and sad events of our past  
 ② are as beautiful as music  
 ③ are arranged in a creative way  
 ④ agree with certain literary style
- 【2】 50. Which of the following statements is NOT TRUE?  
 ① The more we read and learn, the more learned we are.  
 ② The more we read and learn, the more the number of words that mean something to us decreases.  
 ③ The more we read and learn, the more illiterate we become.  
 ④ The more we read and learn, the more knowledge we will acquire.
