Ũ	last night, but we	00	•					
① must have studied ② might study		•						
the plane.	together with his nockey t		warmly welcomed when they got off					
① be	② was	③ were	④ has been					
			until Mr. Reynolds came back					
from abroad.	son put for ward the propos	ai that the program						

① postponed

③ would be postponed ④ had been postponed

## 三、克漏字測驗【請依照段落上下文意,選出最適當的答案】

<sup>(2)</sup> be postponed

In many western cultures, people believe that "seven" is a lucky number, but in Chinese communities around the world, "eight" is considered the most fortuitous of numbers, <u>41</u> it much coveted for addresses, phone numbers and bank accounts. Number "eight" sounds very similar <u>42</u> the Chinese word for "being rich and having a lot of money". The Chinese feel that "eight" portends not only prosperity <u>43</u> confidence and money worth even millions. Most Chinese also try their very best to <u>44</u> numbers which make them think of things that have bad luck. For <u>45</u>, some Chinese do not like the number "four" because it sounds like the Chinese word for "death". The number eight doesn't have the same appeal to the Japanese or Koreans—whose cultures have been influenced by the Chinese—but all three cultures are united in their avoidance of the number four.

【1】 41. ① making	<sup>②</sup> to make	③ made	④ make
[2] 42. <sup>①</sup> in	2 to	3 for	④ with
[4] 43. <sup>①</sup> and	<sup>②</sup> also	③ between	④ but
【2】 44. ① keep	2 avoid	③ choose	④ renounce
[3] 45. <sup>①</sup> illustration	<sup>②</sup> portrait	③ instance	④ demonstration

### 四、閱讀測驗

Do you have bright ideas? Ideas for inventions that change society or, at least, make life easier for somebody? Perhaps we all do sometimes, but we don't often make the idea a reality. Recently, in Britain, there was a competition called British Designers for Tomorrow. The competition encouraged young people to carry out their bright ideas. There were two groups in the contest: Group One was for schoolchildren under 16; Group Two was for schoolchildren over 16. And there were eleven prize-winners altogether.

Neil Hunt, one of the prize-winners, was called "Sunshine Superman" by one newspaper writing about his design. It's important, when people study the weather, to be able to record sunshine accurately. We need to know how many hours of sunshine we have and how strong it is. Most sunshine recorders only record direct sunlight. Neil's is more accurate and this is very important for research into ways of using solar power. With his prize of  $\pounds$  100, Neil plans to carry on inventing.

You can do so much with animation. Look at Simon West's idea for animated road signs. He uses pictures which appear to move as you go nearer to or farther from them. This isn't a new idea. But it is new to use these pictures on road signs. "We found that people were more likely to see moving signs," said Simon. So now, you can really see rocks falling, trains moving, horses galloping or a car falling over the edge of a cliff. Quite a warning!

The ideas in the competition were so inventive that we are surprised that British industry doesn't ask more schoolchildren for suggestions. Perhaps this will be the start of "pupil power"!

### [4] 46. What was carried out recently in Britain?

	<sup>①</sup> A competition in ind	ustry.	<sup>②</sup> A comp				
	<sup>3</sup> A competition amon	g schoolchildren.	④ A comp				
	[4] 47. What was the ai	m of the competition?					
	① To start "pupil powe	r".					
	<sup>②</sup> To ask British indust	ry for ideas.					
	③ To ask schoolchildren for suggestions.						
	<ul> <li>④ To encourage young people to carry out their bright idea</li> <li>【1】 48. What do Neil Hunt and Simon West have in common</li> </ul>						
	<sup>①</sup> They are inventors.		② A teach				
	③ A schoolgirl. They st	tudy animation.	④ A desig				
[3] 49. Why was Neil Hunt called "sunshine Superman"?							
① He suggested the ways of using solar power.							
<sup>②</sup> He invented the way of using solar energy.							
③ He designed a more accurate sunshine recorder.							
	④ He was able to recor	d direct sunshine accura	tely.				
	[2] 50. Who invented a	nimated road signs?					
	① Neil Hunt.	<sup>②</sup> Simon West.	③ A drive				

npetition for 11 prize-winners. npetition called British Designers for Tomorrow.

eas. oon? cher. They are under 16. igner. They are supermen.

④ A schoolchild.
